

# Solar Panel cleaning liquid

## Solar Price List (March-2019)

Solar Clean is a water based, safe to use solar panel cleaning liquid concentrate. It is very effective in cleaning operation and maintains a healthy power output of the solar array.

Solar clean removes dust, dirt, bird droppings, ash and other airborne particles from the glass surface of the solar PV panels and maintains excellent transparency and cleanliness. It does not leave any residue after washing.

Cleans most residue materials from the solar panel glass effectively.

Non-toxic, non-flammable and non-explosive.

Safe for handling, human skin contact, birds, animals, vegetaion and most bio-forms.

Does not need RO, Distilled or Demineralised water for dilution, local water can be used.
